

A letter to the future...

This is currently 2021!

Much chaos roams outside our doors while we are in lockdown! By now you probably know of the HUGE 2020 lockdown which made many lose their jobs. Right now we're in another lockdown, pretty sad right? It's the fourth one Auckland has had for the past year and 2/3s. Many precautions have been put up before and after we might come out!

Such as 2 metre distance, wearing masks, coughing into our elbows and washing our hands after that. Of course all these precautions aren't for nothing? ALL of these sanitary habits are because of THE TERRIBLE, TRETERIOUSE!! COVID19!!!! Doesn't sound very frightening

but believe me, it is. It caused the world to go into immediate "LOCK DOWN MODE" which is very bad. But there are benefits like zooming with your friends and family. Spending a GOOD amount of quality time with your loved ones. And knowing your safe at home knowing a horrible virus is out to get YA!

Hopefully when you're reading this you're not in lockdown! It really sucks being at home all the time. But it teaches you- well me to be grateful that you have a home and food or just a safe space to call home at least. And it teaches you to be mindful of your fellow family members overseas or who live in another neighborhood. That's all from me HAVE A GOOD LOCKDOWN OR NOT, AND GOODBYE!!

Yours sincerely

Eden
