

### **What I learnt about Jesus:**

Jesus is our light and saviour who sacrificed himself for all the sins of the world. I think Jesus is one of a kind because I don't think anyone in this world could do what he did. Jesus was so kind and caring and performed miracles. He healed many people like the lady who was very sick to the point of dying and she wanted just to touch his clothing to be healed. I learnt that if we have faith like that lady, that Jesus can heal anyone who asks and has faith because Jesus is Jehovah Rapha - Our healer. My favourite verse this term has been John 3:16 For God so loved the world he gave his only son, that whoever believes in him shall not perish but have eternal life.
